**Experience  
heights  
with us ...**

A modern elevator lobby with wood-paneled walls and stainless steel elevator doors. The floor is covered in light-colored, rectangular tiles. The ceiling has recessed lighting. A semi-transparent dark box is overlaid on the right side of the image, containing white text.

## WHY CHOOSE US ?

**GALAXY Elevators are dedicated to quality of service provided to the customer. Being a Govt. approved company speaks itself of our quality standards. With over 12 years of experience in vertical transportation this company has well trained and experienced professional serving our customers.**

**Galaxy Elevator is the leading manufacturer and service provider of elevators. For architects and contractors, developers and homeowners, Galaxy is a leading people mover.**

# our DESIGN meets ENGINEERING...

outstanding performance from GALAXY

Quality  
in  
Motion

## ABOUT US

Galaxy Elevator is able to provide the best possible solutions to vertical transportation with all of its resources. So the customers can rely on our outstanding quality products that prove to be the right decision in regard to safety, extreme durability and high efficiency.

While we manufacture, install, modernize and maintain elevators - **the heart of our business is problem solving**. Whether a customer needs a sophisticated elevator system for the large building or a simple lift for a two-story home, we are dedicated to providing the safest, most reliable solutions possible.

## PASSENGER LIFTS

**Passenger Lifts** are high speed lifts which are used to carry passengers safely, smoothly and in Machine Room and Machine Room less types.

# modern TECHNOLOGY. safe & reliable...

**Galaxy Elevator car design is a functional component of architecture and part of your building's image.**

Galaxy Elevator also place emphasis on important criteria such as high durability, easy service, safety, comfort and spaciousness. Optional car designs are available to meet individual demands.

**Goods Lift** are capable of carrying heavy loads as compared to passenger elevators. These elevators have customizable rugged interiors to prevent damage from goods.

**Hospital Lifts** generally have large cabin size to carry stretchers and medical equipment. These Lifts are efficient and smooth and are ideal choice for continuous operation.

**Automobile Lifts** have a very high loading capacity to load automobiles and machines. These can be installed in parking lots, malls, etc.

**Galaxy Elevator** is able to provide the best possible solutions to vertical transportation with all of its resources. So the customers can rely on our outstanding quality products that prove to be the right decision in regard to safety, extreme durability and high efficiency.

**Hydraulic Lifts** are ones which do not require the machine room. These lifts can be installed in houses and space constraint places.

## CABINS

The cabin provided by us are customized, which will match the surroundings as per the customers' requirement. Fire Rated Cabins are also available wherever required.

## DOORS & CEILING

The cabin provided by us are customized, which will match the surroundings as per the customers' requirement. Fire Rated Cabins are also available wherever required.

Various finishes including S.S. hairline, M.S. Powder Coated, S.S. Gold Mirror finish and many more.....

the design of **GALAXY Elevator** takes full consideration of your building's environment.

- **VARIETY ECONOMICAL DOOR STYLE**
- **SUSPENDED ELEVATOR CEILING**
- **STANDARD ELEVATOR CEILING**

**new COMFORT. new EMINENCE.**

**Galaxy Elevator** offers you right solution for vertical transportation in your buildings, from low, middle to higher level. Our major focus is on customers' needs for reliable operation, safety, aesthetic appeal and economy. The functional design and aesthetic appearance demonstrate our high-quality and modern technology.

False ceiling and the Flooring of the elevator cabin also can be changed as per requirement.

## **COP AND LOP**

The **COP** and **LOP** switches provided by us are manufactured by **BST** which is one of the largest manufacturer of elevator switches in the world. There are various options to choose from as per the request of the customer available in **LCD display** or **Dot Matrix**.

## new INDIVIDUALITY. new USER-FRIENDLINESS.

**the attractive, clear and user-friendly elevator operation stands for good service.**

The highly functional car operating panel (COP) combines all necessary operating functions, subject to the specific requirements. The push buttons and indicators offer passenger attractive, clear and precise information of the ride. Our operating and indicating elements use world common graphics instead of languages, eliminating the language barrier and making the indication visually easy.

Car Operating Panel  
(COP), push Buttons

Landing Operating  
Panels (LOP),  
Push Buttons

SS Elevator Button Control Panel

It is ne tradition of Galaxy Elevator to oer environment and outlook of the building as of the best function and values. Our car decorations feature comfort, increased usable space and passenger-friendly lighting, which makes your building distinctive as well as functional.

A close-up, high-angle shot of an elevator's pulley system. A large, silver-colored metal pulley wheel with eight spokes is the central focus. A thick, dark steel cable is wrapped around the pulley. The background is a light blue sky, and the overall image has a blue tint. A semi-transparent blue rectangle is overlaid on the right side of the image, containing white text.

## **MACHINES & DRIVES**

**Galaxy Elevator does everything which can assure the operation and fast travel time through modern technology.**

**When it comes to safety there are no other elevators can perform better than those made by Galaxy Elevator - our technology that truly cares for people.**

# new INTELLIGENCE. new POSSIBILITIES.

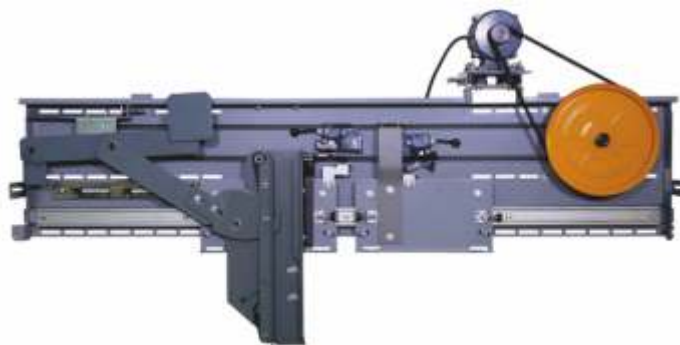

innovative drive solutions and door systems with the elevator operate at higher efficiency.

## ADVANCED VVVF CAR DOOR OPERATOR

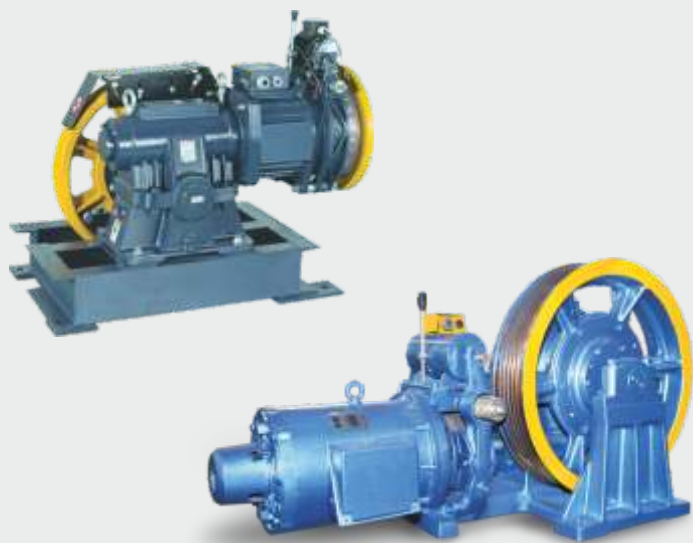

We use the machines which are manufactured by well known brands in the elevator world such as Montanari (Italy), Sicor (Italy) and Bharat Bijlee (India).

Advantages:

- Door speed adjustable at site for high opening and slow closing speed to suit building requirements.
- Metal door roller with rubber coating for high durability & low noise.
- Door de-locking key in door frame (at landing) for better aesthetics.
- Simple design for faster installation.
- Door frames at landings integral part of the doors.

## GEARED MACHINES

Machines with static load ranging  
from 2200 KG to 15000 KG

## GEARLESS MACHINES

Gearless Machines with static load  
from 1000 KG to 5500 KG

## ADVANCED VVVF CAR DRIVES

Safety and reliability are the most important factors for elevators. Smooth operation is ensured by the modern operating systems. Door protection with modern mechanical safety edge, light beam or light curtain.

Innovance drives and Yaskawa drives are preferred by us. The technology such as VVVF drives and integrated drives are amongst the latest technologies used.
